

**13th Annual
Working 2 Walk
Science & Advocacy Symposium**

**October 19-20, 2018
Vancouver, Canada**

Exhibitor Prospectus

Working 2 Walk (W2W) 2018 is a two day symposium to be held at the Airport Sheraton in Vancouver, Canada. The focus of this event is the advancement of curative therapies for paralysis. Information will be presented on current treatments, research, the status of clinical trials, and essential strategies to improve overall physical health of individuals living with paralysis. Advocacy sessions will provide tools and resources that will empower community members to promote increased funding and research leading to curative therapies.

Previous W2W symposiums were held in Miami, Minneapolis, Washington DC, Chicago, Phoenix, Boston, Seattle, and Irvine CA, hosting 200-250 highly motivated attendees each year. This event provides a unique setting for researchers, clinicians, and the paralysis community to collaborate on the advancement of cutting edge regenerative and rehabilitative therapies.

Note that we have a very high percentage of returning supporters from year to year, and our exhibitors value the intimate environment and opportunity to connect with such a unique and committed audience.

Audience

- Paralysis survivors (primarily spinal cord injury)
- SCI Advocacy Organizations & Foundations
- Families, Friends and Caregivers
- Research Scientists
- Biotech and Pharma Representatives
- Activity Based Therapy and Fitness Centers
- Rehabilitation and Recovery Specialists
- Occupational and Physical Therapists

Exhibitor Schedule

On Friday, October 19, and Saturday, October 20, the event schedule will run from 8:00 am to 5:00 pm. There will be a networking reception from 5:00-7:00 pm on Friday evening. Exhibitor tables will be conveniently located directly outside the main conference hall. Attendees will have numerous opportunities to visit exhibitors prior to the symposium, during all breaks, and after the sessions. When the event schedule is finalized, a copy will be sent to all exhibitors.
